EDUCATION

SRMIST KATTANKULATHUR

B.tech in Electrical And Electronics
Engineering
2024 - Present

PROJECTS

OWNLY.SOCIAL

Mar 2026 - Present

- Built a responsive UI using Next.js and tailwind.
- Used MongoDB atlas and design paradigms to query through millions of users in minuscule time
- Used express.js to build a robust and fast api which can cope up with millions of concurrent requests

BECOR

MAR 2026

- Used 3js to build an interactive 3D environment

POTION

Mar 2026

- used electron to make a fully offline notes taking software
- Used react and tailwind to make a reactive UI layout
- Used sqlite to store and lode data locally without increasing dependency bloat
- Implemented a test suite.
